NABH
MIS-2016-0023

Patient Name :	Rohit Prasad Sharma	**Lab No :**	YSF24051403
Age / Sex :	28 Y / M	**Registration On :**	13-June-24 10:52
Referred By :	NANDA HOSPITAL	**Patient ID :**	UYSF.000011785
Centre :	SAKET		

CT Head

Approved On: 13-June-24

NCCT HEAD

STUDY PROTOCOL:
SECTIONS OF APPROPRIATE THICKNESS WERE OBTAINED SO AS TO SCAN THE CRANIUM BY USING STATE OF THE ART MULTIDETECTOR CT SCANNER.

Clinical History:- H/o fall in bathroom with injury to right side of head.

FINDINGS:

No intra or extraaxial hemorrhage is noted in bilateral cerebral & cerebellar hemispheres

Both cerebral hemispheres appear normal in attenuation.

Ventricular system is normal in size with septum in the mid line.

Bilateral basal ganglia and thalami appear normal.

Basal cisterns and sylvian fissures are preserved.

Fourth ventricle is normal in size and shape.

Cerebellar parenchyma is normal.

Region of the brain stem appears normal.

Bony calvarium is normal.

Note is made of mucosal thickening in all the paranasal sinuses.

IMPRESSION:-

- NO SIGNIFICANT INTRACRANIAL ABNORMALITY.

Advice: Clinical correlation.

Investigations have their limitations. Solitary investigations never confirm the final diagnosis of disease. It only helps in diagnosing the disease in correlation to the clinical symptoms. Not meant for medico legal purposes.

Conditions Of Reporting

- The report results are for information and interpretation for your referring doctor. Reports are to be correlated with the patient's clinical history.
- Biological Reference Range/Interval is suggested for your Gender and Age on the basis of available literature. All reference ranges are to be reconsidered by physician's advice for your specific care.
- This Medical Report is a professional opinion, not a diagnosis.
- The report will carry the name and age provided at the time of registration. To maintain confidentiality, certain reports may not be e-mailed at the discretion of the management.
- All the notes and interpretation beneath the pathology result in the report provided are for educational purpose only. It is not intended to be a substitute for physician's consultation.
- Results of tests may vary from laboratory to laboratory and in some parameters from time to time for the same patients. Test results and reference range may also vary depending on the technology and methodology used. Laboratory test results may also vary depending on the age, sex, time of the day sample has been taken, diet, medication and limitation of modern technology.
- In case of any unexpected or alarming test results, please contact us immediately for re-confirmation, further discussion, clarifications and rectifications, if needed.
- In case of any discrepancy due to typing error, kindly get it rectified immediately.
- Neither HOD or its employees/representatives assume any liability or responsibility for any loss or damage that may be incurred by any person as a result of interpreting the meaning of this report.
- Test results are not valid for medico legal purposes.
- In case of any issues or suggestions about your test results, please email us on quality@houseofdiagnostics.com
