A. September
B. July
C. October

1

Q9. How many side dose a triangle have?
A. 3
B. 5
C. 6

1

Q10. Which of these is a vegetable?

A. Apple
B. Carrot
C. Orange

1

Comprehension Passage:

Ravi had been planning a family trip to Shimla for weeks. He carefully booked train tickets, reserved a hotel, and made a list of places to visit. However, on the day of travel, he realized that his train was delayed by five hours due to bad weather. This meant he would reach Shimla very late at night, making it difficult to find transportation to the hotel. To make matters worse, his phone battery was low, and he had forgotten to carry a power bank. Ravi now had to decide whether to wait for the train or find an alternative way to reach Shimla on time. He also needed to figure out how to contact the hotel to inform them about the delay.

Questions A :

1. **Where was Ravi planning to travel, and what arrangements had he made?** Shimla for weeks
2. **Why was his train delayed?** for five hours
3. **What problems did Ravi face on the day of travel?**
4. **Why was reaching Shimla late at night a concern for Ravi?**
5. **What two decisions did Ravi need to make after realizing the delay?**

6. **If you were in Ravi's place, what would you do to ensure you reach Shimla safely?**
7. **How can Ravi charge his phone if he does not have a power bank?**
8. **What alternative transportation options might be available for Ravi to reach Shimla?**
9. **How can Ravi inform the hotel about the delay if his phone runs out of battery?**
10. **What precautions can travelers take to avoid such problems while traveling?**

simly planning wor

(1) Ans (1) Train tiokets, reserved, a hotel, and made a list of places to visit

(2) Bad weather (1)

(3) (1) five hours, problems, one the day phone battery was low, and he had forgotten to carry a power Bank

(5) He also needed to figure out how to contact the hotel to inform them about ~~the~~ delay (1)

$3\frac{1}{2}$ / 10
